A Chinese auction is a combination of a raffle and an auction!

The difference between a raffle and a Chinese auction is that in a raffle with multiple prizes, there is one "hat" from which names are drawn; in a Chinese auction each prize has its own "hat". This allows ticket buyers to choose which prize to focus on, rather than having a first, second etc. prize.

Bidders are not prospective buyers. You instead buy tickets which are chances to win items. You may buy as many tickets as you like, and "bid" them on item(s) you want by placing them in the container for the item(s) you are trying to win. At the conclusion of bidding (around 10:00), the winning ticket is drawn from the tickets placed on each item, and the item is given to the owner of that ticket. You need not be present to win!

Bidders increase their chance of winning by buying and bidding more tickets on a specific item. There is no limit to the number of tickets a given individual may bid on a specific item; the ultimate chance of winning depends on the total number of tickets bid by all interested individuals.

**The items on the next pages
have been donated to help the Humane Society
continue operations at the highest level possible.**

Thanks to all!
